GROWTH ROADMAP

Revshare Racing empowers vending partners to tap into a fast-growing, tech-driven revenue stream by turning high-traffic locations into autonomous entertainment hubs. Each racing simulator earns predictable monthly income with minimal upkeep while contributing to a national prize ecosystem that drives repeat visits and rising engagement. As the network grows, every additional rig multiplies earning potential, allowing partners to scale from supplemental income to a full-time, route-based business. Joining now positions you at the forefront of a new vending category—where entertainment, passive income, and national competition converge.

PHASE 1 – SINGLE RIG PROOF

START WITH ONE RIG TO LEARN THE SYSTEM, BUILD CONFIDENCE, AND GENERATE PREDICTABLE RECURRING REVENUE WITH ALMOST NO MANAGEMENT REQUIRED.

PHASE 2 – MULTI-RIG CASHFLOW

EXPAND TO 3-5 RIGS AND UNLOCK MEANINGFUL MONTHLY INCOME THAT COMPOUNDS WITH EVERY ADDITIONAL PLACEMENT.

PHASE 3 – REGIONAL COVERAGE

ESTABLISH 10-20 RIGS ACROSS MULTIPLE HIGH-TRAFFIC LOCATIONS, CREATING A RELIABLE, SCALABLE ROUTE THAT PRODUCES STABLE, PASSIVE MONTHLY EARNINGS.

PHASE 4 – FULL-SCALE OPERATOR

Location Owned Rigs (Vending Partner 20% Share)

Number of Rigs	Gross Monthly Revenue	Vending Partner 20%	Annual Vending Partner Revenue
1 rig	\$3,750	\$750/mo	\$9,000/yr
3 rigs	\$11,250	\$2,250/mo	\$27,000/yr
6 rigs	\$22,500	\$4,500/mo	\$54,000/yr

Vending partners can choose to operate in both revenue models, creating a flexible path toward scalable income. The simplest entry point requires no upfront investment—partners work with locations that purchase their own rigs, earning recurring monthly revenue by managing, cleaning, and maintaining the simulators. As that steady cashflow builds, partners can reinvest into owning their own rigs, instantly leveling up to the higher-return model. This creates a natural progression: start with zero capital, generate reliable income, and convert that momentum into an expanding portfolio of owned simulators with significantly stronger returns.
